"The mathematician's best work is high art, as daring as the most secret dreams of imagination. Mathematical genius and artistic genius touch one another"

G. Mittag-Leffler

A2 Maths with Mechanics Assignment ω (omega)

Use this document to help you plan your revision between now and the time of the exam.

The best way to revise for a Maths exam is to do some maths!
Follow the schedule here and keep up to date.

A suggested approach to completing past papers:

- 1) Complete in test conditions on your own. Keep to time and don't look at the mark scheme until you have completed it.
- 2) Mark the paper using the mark scheme and analyse the paper
- 3) study the textbook and watch videos to understand any Qs you couldn't do
- 4) a few days later, re-do the whole paper.
- 5) make a note of any hard/unusual questions you come across so you can come back to them in the last few days before the exam

The real way to improve is to **learn from your mistakes**.

If you make a mistake or you've forgotten how to do something or you don't know how to get started, by all means read the mark scheme....but try this question again a day or two later and make sure that you've learned how to do it.

You've been working very hard for nearly two years on your A level. One final push will mean you get the best grade you possibly can. **Enjoy your revision** and **keep to this schedule**.

Start week beginning	Hand in week beginning	Assignment
March 13 th	March 20 th	January 2011 C3 January 2011 C4 January 2011 M2
